“ To all of the family for Barbara - Our mothers were sisters and I know they are waiting for Barbara to get there. I have a lot of fun memories of Barbara - one I am going to share with you - when our son, Rob, was born he was the youngest in our "clan". Barbara was so excited when we went there for a visit. This particular time was around lunch time and Aunt Bonnie had cooked butterbeans. Barbara was in charge of feeding Rob - well - he had a bowl of the butterbeans and his fingers seemed to be the way he wanted to eat them - that is until Barbara tells him to put the bowl on his head - WELL - he did what she told him to do. Needless to say that was one time when I let Barbara clean him up. That was a memory that never died. I know that is a small thing to remember but it was one I know Barbara never forgot and over the years it was told many times. Barbara was a wonderful person. She was smart and cute along with that. She cared for so many people and I know she is already in Heaven with her family. Wouldn't it be wonderful if we could all see her with so many loved ones around her. Because of health issues I can't be there with you but know that my prayers are with all of you. Bob has been in Heaven since October 18th and I am sure the first thing he is going to say to Barbara is "Who let the dogs out".

Love to all of you Doris King

I wish I could be with family today. My mind is flooded with precious memories growing up with my cousins. Going to Mawmaw and Pawpaws meant we got to see each one. We met each Christmas to cut our own Christmas tree ... Carthage , Ms♥ We had massive Easter egg hunts in the wide open filled. Our Mothers boiled and colored dozens of eggs. Funny how I remember pawpaw seemed to point a few out to me😘 we would then meet back on the front porch with our baskets full of brightly covered eggs. We would spend the rest of the afternoon outside running and playing among Mawmaw's beautiful flowers. It was always so exciting to see Barbara, Danny, Aunt Bonnie and Uncle CL pull up in their green Dodge. Then there were the nights after Pawpaw was gone And went spent the night with our Mawmaw. It always seemed cold but there was so much love in that room and we were quickly warm up as she would tuck us in with what seemed like mountains of beautiful handmade quilts... I may add Barbara and I felt like she had wrapped us so tight we couldn't move. When it really was we were wrapped in the love that only a grandmother can could. I will miss you Barbara, our phone calls too far apart as yrs went by. You lost Danny weeks after I lost Phil... two sisters without brothers who we adored. They along with you are now healed and with Jesus. Oh what a day of rejoicing it is. Hug my baby girl for me and Jeff. Until we meet again and our family circle will be unbroken✝

I might add I was always amazed at Barbara's love of learning and teaching. She earned a Master degree from Ms State. She taught her entire adult life.. she loved her students. She worked on her Doctorate... all requirements meet except her dissertation. I told her it was never to late to complete that... her love for History was passed on to her students. I felt we need to think of her dedication to her students and all the lives young lives she touched who hopefully are reaping the benefits of her desire to help them reach their goals in life. Will miss and love you my dear cousin.. ✝♥✝
