“ Bill,

*Man at the times we had. You were absolutely a man of patience. A man that was always the same. I often think of all the time we spent. You were an inspiration to me. I'll never forget that day in church and you were up with the band. I asked my mom what's he doing. She replied you will want to pay attention. As you picked up that peptobismal pink bass and began to play. As it was a natural extension that you played with greatness and emotion. Your base lines were all so smooth there was no need for a guitar, because you were telling that story.*

*Your craftsmanship ship was second to none. I am proud to have had you as a dad. You have always had a place in my heart. And I willl always look back and see a man that was of few words and would do anything he could to make sure everything was alright.*

*With Love,*

*Nick Moore*
